## CAMERA-MONITOR-SYSTEMS

## DETECTION- & WARNING SYSTEMS

### AI-Cameras

- recognizing people by using artificial intelligence (AI)
- available as front and rear view camera & AI HD 360° camera system
- Plug & Play
- eliminates blind spots
- efficient acoustic/visual warning messages

### Backeye 360°

- avoiding blind spots
- complete 360° bird's-eye view on the vehicle's surroundings
- 4 ultra-wide viewing angle cameras
- configurable setup suited to the vehicle type
- high resolution

### Cameras

- Improved visibility at blind spots and while reversing
- ELITE and SELECT series available as PAL and NTSC models
- AHD cameras and WDR cameras available series-dependent
- Front- & Rear-View Cameras/ Shutter Cameras

### Reversing Alarms

- Reversing alarms for different applications
- In addition to standard reversing alarms, reversing alarms that self-adjust to the ambient volume are also available
- pulse or continuous tone

### White Sound Alarms

- replace traditional reversing alarms/beepers
- utilize a wide range of broadband audio frequencies
- clear direction detection
- generate a 'sh-sh' sound that defines the danger zone
- in addition to standard white sound alarms, variants of the SMART bbs-tek® series that adapt to the noise level are also available

### Side Cameras

- SELECT HD series
- AHD camera as PAL and NTSC models available
- infrared LEDs for ultra-low light performance
- rotatable lens

### Dome-Camera AHD

- DOME Camera with swivelling range of 150° in all directions
- Interior and exterior application
- SELECT HD series
- AHD camera available as PAL and NTSC models

### Monitors

- 10,4"/7"/5"-Monitors
- depending on the version, as a single-screen or multi-screen LCD monitor available
- real-time views
- avoiding blind spots with ultra-wide viewing angle cameras

### Radar Predict Sensor Systems

- AI based turning assistant
- analyses data on moving objects and warns if a collision is likely
- Reduces false alarms
- simple Installation, no CAN interface required
- up to 46m detection length

## RECORDING SYSTEMS

- mobile digital recorders (MDR) as well as dashcams
- Recording of visual material for indisputable evidence if required
- protection against vandalism
- simplifying fleet management

Do you need cameras, monitors or warning devices with suitable cable lengths or mounting options? We will customize the right BRIGADE product for you! Please feel free to contact us.
